

WHY CHOOSE PG ONLINE?

Your complete guide to what we can do for you,
your department and your students

PG ONLINE

We believe...

The quality of education can be revolutionised by providing teachers with the very best resources to support lesson planning and delivery.

Materials should support teachers to increase the quality and consistency of every lesson for students. We want to give teachers back their time, increase their enjoyment of the profession to improve recruitment and retention, and simultaneously improve grades.

Our method

Even before a teacher begins their working day, they must create their own tools.

Why?

For every lesson plan, worksheet or presentation a teacher creates, hundreds more teachers are doing exactly the same thing, at the same time, across the UK. The materials they create add to the thousands of versions that have been produced already on the same topic, for the same curriculum.

This happens in every school, and in every department.

There are approximately 6,000 secondary schools in the UK. If 3,000 similar worksheets are created in only half those schools by teachers who spend just 20 minutes on their version, (even if this is just searching for another similar one they can adapt), it represents a collective 1,000 man-hours of teacher talent on that topic. How could that 1,000 hours be better spent?

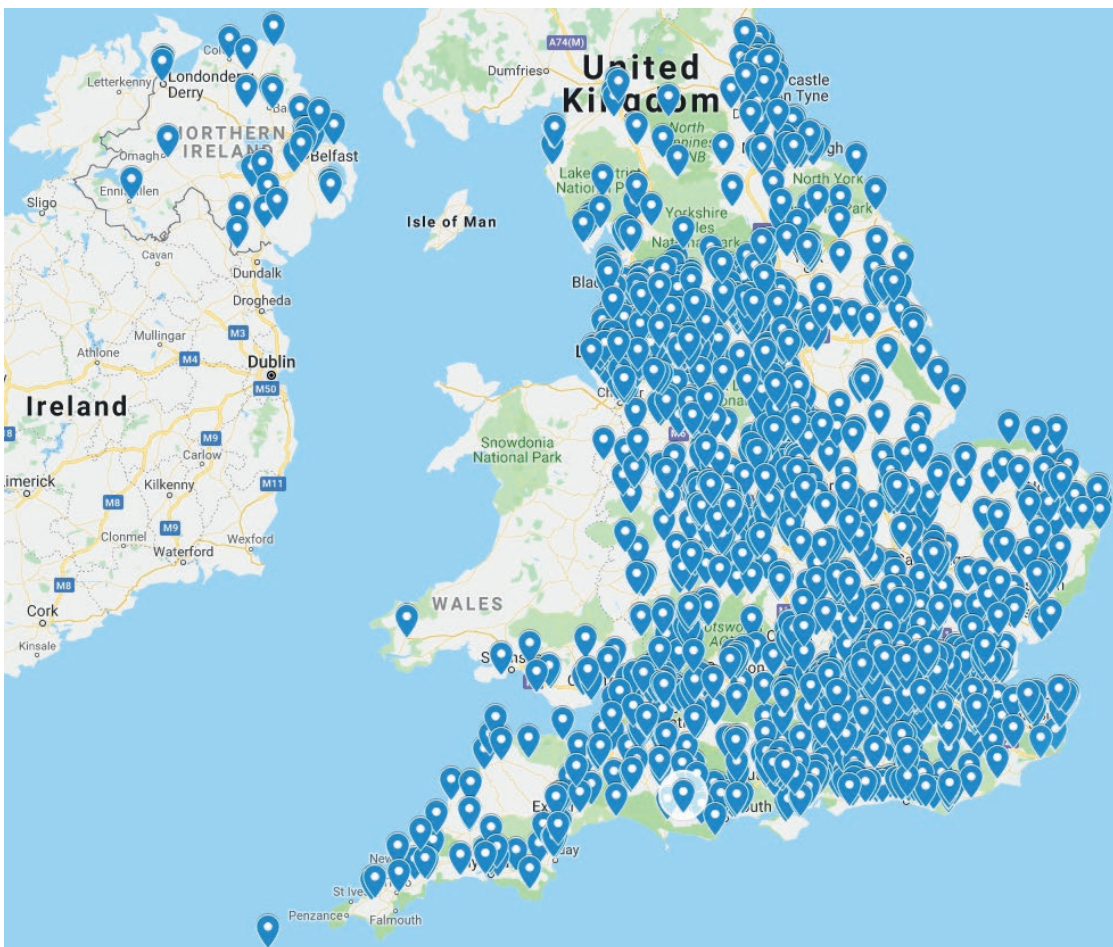

Who are PG Online?

We are a group of teachers and school leaders who understand the problems of many departments.

We began in 2013, preparing beautiful, carefully devised and contextual lesson content to support teachers and reduce the level of duplication in planning the same lessons. We wanted our teaching colleagues to feel empowered and excited to teach from our material and to inspire students in a way that they don't always get given the time available for this level of planning and preparation.

Overcoming recruitment issues requires new strategies. Planning can become overwhelming. New and non-specialist teachers need genuine mentoring and support in order to improve quickly, and cover work can be patchy in quality and robustness. We provide a complete consistency to teaching across a whole department that supports and bolsters each teacher's own work and style of delivery in a way that blends effortlessly.

Our resources are now used in well over half of secondary schools in England and in domestic and British international schools in over 75 countries worldwide.

What we do

We are STEM specialists offering support for Science, Design and Technology, Maths, Computer Science and Business.

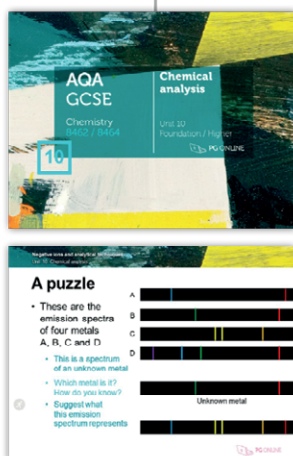

We produce editable teaching resources and textbooks in printed and digital formats for KS3 to A Level. We work with all major examination boards with official endorsement and approval to tailor resources for their courses.

AQA Cambridge OCR Pearson Edexcel BTEC

This provides absolute confidence that all areas of each specification have been covered to the appropriate depth and that students have been given opportunity to apply their knowledge to each learning outcome.

For every objective in every lesson, we provide the following:

Engaging PPT lesson presentations

Editable lessons for every component

Lesson plans with answers

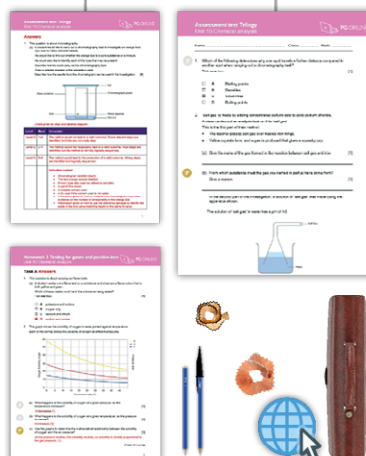

Complete coverage

Practical worksheets

Weighted homework with answers

Exam-style assessments with full mark schemes

Digital video and resource links

In just five years, our resources have been recognised by every major educational industry awards in the UK and globally.

Put us to the test

Free textbooks and resources. No catch. No invoice.

For each exam series we produce materials for, there is a free unit. For each paid unit, we offer a free lesson. For each textbook, we offer a free inspection copy and we will never ask you to return it or send a follow-up invoice. It's yours to keep.

Find a topic that you are teaching this week and request or download a free set of materials for it today.

Visit our website at www.pgonline.co.uk and pick your subject area. Deliver your next lesson with our resources. Let us know how it goes and see how much time you save.

All of our core materials are completely editable, written in the form you might write your own lessons using common Office documents. Once licenced, you can manipulate them in any way that best suits you and your school. Students can also have access via a secure VLE.

See how our free unit helps your teaching, delivery, students engagement and time management after just one block of lessons. Start using it in class today.

No charge, no obligation and no risk.

How does this fit in your department?

All our materials are completely editable meaning that you can adapt and customise them for your own teaching style, school delivery preferences, and because only you know your students best, for your students' ability.

Our resources do not have to change the way you do things, they will complement and enhance everything you already do, whenever you do it. Let them form a new base level of quality and consistency of delivery across the whole department. They provide a comprehensive, reliable library of proven resources which colleagues of any level of experience may dip into and out of at different rates. Many teachers use our materials out of the box for all lessons with wonderful results too. Support the whole department in ways that best suits each colleague, and see what impact the materials have on teaching and results next year.

In an independent survey of over 60,000 students in 2018, we found that the results of GCSE and A Level students increased significantly in schools using PG Online materials.

12% of students **improved** their **GCSE grade** in schools using PG Online GCSE Teaching Units

23% of students **improved** their **A Level grade** in schools using PG Online A Level Teaching Units

Following a survey of over 300 teachers in December 2018, teachers using PG Online materials saved an average of 3.2 hours per week. We would like to help you do the same.

Making the decision to purchase

If you are close to making the decision on how best to support your department, we are here to help. Our payment options are simple.

Our materials are available in the same editable format, however you choose to pay. Our lifetime ownership option gives you the maximum value from a one-off price, whilst the budget plan allows you spread the same lifetime cost over up to three budget years. With these options, you can also pick and mix only those units that you feel will benefit you most urgently. The subscription packages provide a complete series of resources to you on an annual subscription for great flexibility. We will contact you annually for renewals and you can cancel at any time.

Pick & Mix	Budget Plan	Subscription Package
Select any units and make a one-off lifetime payment with a lifetime site licence	Spread the cost of a lifetime site licence over 2 or 3 budget years	A complete series of units licenced annually

Our customer service is second to none. Our experienced teachers and subject experts are available to help and support you for the lifetime of the materials.

Our 100% guarantee extends to 100 days or roughly a school term in which time you can implement lessons and begin to see the results. We want you to be completely satisfied like over 100,000 UK teachers who have already let us take the weight off their shoulders.

No risk, no problem, and we hope you will agree, a no brainer. Contact us for more details and we would love to help get you started with instant access to a new generation of quality resources.

Don't just take our word for it

“

“The worksheets relating to each part of the unit are excellent for consolidation.”

Fiona Peers.
Head of Mathematics
Akeley Wood School

“As a department, we find the resources that PG Online produce are of a fantastic standard and depth. The resources have saved us hundreds of hours of time, and we are very grateful!”

Paul Briggs.
Head of Design Technology
The Blue Coat School

“The PowerPoints helped my knowledge of the subject as a non specialist..”

Thomas Fincham.
Department of Science
Lutterworth College

“Your customer service is excellent. I now understand why PG Online is so highly recommended by colleagues in other schools.”

Naushin Mirza
Deputy Head of Department
St John Payne Catholic School

“I am so impressed with the resources. Never have I come across bought-in resources like these!!”

Marvin Richardson-Grubb.
Computer Science and IT
Writhlington School

“The resources we have received have been excellent. Students have really engaged with the content and it has enabled the business department to streamline our teaching.”

Alice McGinty.
Head of Business Studies
Coombe Boys' School

“I'd just like to express my thanks for the material and support. If I had needed to have made my own resources, the results wouldn't have been as good.”

Paul Sloane.
Head of Computer Science
Lady Manners School

“PG service is as slick as polished weasel grease!”

Gavin Nuttall-Owen.
Head of Department
Bishop Fox's School

“The lessons are a fantastic starting point for non-specialists teaching maths for the first time. The material is covered, with conceptually sound explanations and probing questions embedded in those explanations.”

Heather Davis.
Mathematics Education Consultant
Professional Development Lead for the NCETM
